

DIDSBURY PIONEER

EDMONTON, No. 18

DIDSBURY, ALBERTA, THURSDAY, MAY 6, 1937

\$2.00 per Year. 5 Cents a Copy

Provincial Library, Dec 23, 1937

The masquerade put on by the 20th Century Club on Monday evening received exceptionally good support, the floor of the club room being well occupied with masked dancers in many and colorful costumes. The club also realized in a financial manner on the 25c fines imposed on those not in costume. Music for the evening was furnished by Miss E. Liesemer and Messrs. Bob Robinson, Albert McLaurie and Art Reiber. George Royds made a colorful floor manager.

Prizes for costumes were awarded as follows: Ladies Best, Miss Grace Loader (old fashioned lady); Gent's Best, Mr. Eddie Buhr (Mexican) and Best Comic, Mr. Bill Ross (nigger). The judges' task was by no means an easy one.

The belated arrival of two charming young ladies in the persons of Tom Royds and Alf Brusso, created lots of humor, as did Al Thomas also in the realistic garb of a sack of onions.

After midnight lunch a program was presented, including a tap dance by Dorothy Buhr, clarinet solo by Bob Robinson, tap dance (Marie Lumsden), two songs (Eddie Buhr), harmonica and guitar duet (Albert McLaurie and Eddie Buhr) and a descriptive march from piano and drums (Ernie Clarke and Albert McLaurie). The evening finally wound up with dancing until the small hours.

\$20,000 Distributed In Seed Grain Relief

Saturday last a council meeting of Mountain View M.D. 310 was held at Olds, when the secretary reported that the cost of seed grain relief within the municipality would amount to about \$20,000. Seed grain amounting to \$17,078 had already been distributed, and while wheat had practically all been distributed, a considerable amount of oats and barley had yet to be distributed.

The road program was discussed, and while it would not be as extensive as last year, it was expected that about five miles of new grade would be built in each division. Graders will be put to work as soon as conditions are favorable, and the same crew as last year will operate the graders. This year more attention will be given to grading the low places in the roads rather than to grading in long stretches.

A letter from the Department was read suggesting that information with regard to taxes in cases under the Farmers' Credit Arrangement Act should be made uniform. The Board of Review has agreed that discounts with regard to taxes would be based on the Tax Consolidation Act. A resolution was passed approving of the agreement.

It was decided to make application to the Department of Agriculture for the municipality to come under the Forage Crop Seed scheme for 1938. Under this scheme grass seed will be supplied for seeding land in an effort to counteract soil drifting. The farmer will pay 50% of the cost of the seed and the Government and municipality will pay the other 50%.

Five cases were reported under the Farmers' Credit Arrangements Act and the report of the Board of Review was received of two cases.

"Dodsworth."

This week's attraction at the Opera House brings Walter Huston in "Dodsworth," a truly fine story well portrayed. It is Samuel Goldwyn's greatest screen achievement. The strong supporting cast includes Paul Lukas and Mary Astor.

On May 12th an extra show preceding the dance, brings "Hideaway Girl," fast-moving comedy.

Future attractions include such shows as "San Francisco," "Rose Marie," the Quintuplets in "Reunion," and many other outstanding features.

C.P.R. Will Establish Freight Delivery

Commencing May 17 the C.P.R. will establish a free delivery service on all "less-carload" freight from points west of Regina and Saskatoon in Saskatchewan and from all points in Alberta. There will also be a free pick-up service on outgoing freight destined to the same points.

BIRTHS

Didsbury General Hospital.

May 1 to Mr. and Mrs. Wilfred Strome a daughter.

May 3 to Mr. and Mrs. Ed. Watkin a daughter, Valeta May

May 5 to Mr. and Mrs. Roy McNaughton a daughter

Public School to Present "Tom Sawyer."

"Tom Sawyer," an operetta based on Mark Twain's immortal story will be presented by the Didsbury Public School next Monday evening, May 10th at 8:30 p.m. in the Opera House.

Special scenery has been prepared and the stage settings have been fitted to coincide with the theme of the story. A chorus of some seventy children will perform along with the following cast:

Tom Sawyer: Ralph Edwards
Aunt Polly: Lorna Carleton
Huckleberry Finn: Lloyd Erb
Sid: Don Fleury
Joe Harper: Douglas Wordie
Ben: Baillie Carleton
Mary: Edith Royds
Amy Lawrence:
Margaret Adshead
Becky Thatcher: Adeline Buhr
Injun Joe: Bert Buhr
Widow Douglas: Alice Tighe
Alfred Temple: Eldon Foote
Muff Potter: George Kercher
Pard: George Gillrie

Adshead's Entertain to Interesting Picture

The pictures shown Monday night under the auspices of the Adshead Garage and General Motors were very interesting and much appreciated by the large audience.

The trip through the factory at Oshawa showed the car in every phase of its manufacture and it was wonderful to see the precision in which every part of the car was brought together on the assembling line.

The mythical trip through the engine of the Chevrolet car was a novel feature that showed the workings of the engine in operation.

From an educational standpoint the "Safety" film was outstanding. It gave an aeroplane picture of what can happen when a driver is not paying attention to the rules of good driving. Its theme was "when driving watch out for all four cars—the one in front, the one you are driving, the one behind, and the one around the corner, you cannot see."

Other films showed and described the full line of General Motors cars and trucks.

The show as a whole was both interesting and instructive.

THE CORONATION CELEBRATION.

Parade of Organizations and Schools. Afternoon Sports, Light Beacon in Evening.

THE Arrangements for the Coronation Celebration were completed at a meeting of the committee held on Friday evening.

The rural schools have been invited to attend and practically every school in the district has intimated that it will be here with a full quota of school children. It is hoped that all the parents will be present at the celebration.

The school children will gather at the C.P.R. Grounds before noon on May 12th. Coffee will be supplied for lunch from 12 to 12:30 and Souvenir Buttons will be given to all school children.

The Parade will be marshalled by the Canadian Legion at 1:15 p.m. and will proceed to the School Grounds.

Headed by the Didsbury Band the order of the parade will be: Town and Other Officials, Rural Schools, Town Public School, Town High School, Canadian Legion, I.O.D.E., Other Organizations, Citizens.

On arriving at the school grounds a short service will be held, with an address by Mayor Chambers.

After the service ice cream will be distributed to all children. A full program of sports, races, and softball has been arranged for the balance of the afternoon.

In the evening the 20th Century Club will light a huge beacon on the Butte which will be seen for miles around the countryside.

Sharp's Circuit Shows have made arrangements for a special picture show, the feature of which will be a sparkling comedy, "Hideaway Girl."

The final event of the day will be a Coronation Dance sponsored by the I.O.D.E. and Canadian Legion, the proceeds to go to the Red Cross Society.

Knox United Church Notes.

The services next Sunday will be of a special character. The Order of Service of the United Church of Canada for the Coronation will be used, and the sermon will be a Mothers' Day Message. All are cordially invited — Westcott at

Young Musicians Win at Calgary.

Didsbury was represented by three young musicians at the Calgary Musical Festival on Tuesday and Wednesday and they gave a very good account of themselves.

On Tuesday Betty Boorman was successful in winning first place in the cello class and Gladys Geeson took second place in the Lieder vocal class being only two points behind the winner.

Dorothy Buhr took part in the competition Wednesday, the results of which were not to hand when going to press.

The Community Newspaper

Few people appreciate in anything like full measure the tremendous influence for good exerted by the country weekly newspapers of the western provinces in the communities they serve and the quality of the service rendered by the proprietors and editors of these weekly symposiums of world, national and local current events.

Whether realized or not, however, the fact remains and can be irrefutably established that the well-conducted and discriminately edited country weekly—and that means the great majority of them—fulfills an extremely important function in the town and rural district in which it circulates. Nothing else that the subscriber purchases can be bought to yield such value for such a small monetary consideration.

And not only in quantity of material does the subscriber receive great value for an almost infinitesimal outlay but the quality of the merchandise offered to the purchaser of the paper is an unparalleled tribute to the discernment, ability and integrity of the proprietor who shapes its course and determines its policies.

An analysis of the contents of the average issue of the mill-run of country weeklies in the west demonstrates that considerable discernment is exercised in the selection of the news presented to their readers, that a high moral plane dictates the selection that is made and that service to the community of a high order is invariably maintained throughout their columns whether devoted to world events or to small local occurrences.

Partly because of this all-pervading tone permeating from the first paragraph to the last and partly because in many homes the local weekly is the sole printed purveyor of current topics no literature is more consistently and carefully read or with such close scrutiny, including the advertisements, than the country weekly newspaper.

Another factor which commends the country weekly to its readers and subscribers is the eminently sane outlook of its proprietor and editor in approaching the problems of the day—whether they be political, social, religious or economic. Their utterances invariably reflect a breadth of vision and spirit of tolerance so much needed in a world gone mad and at a time when too many turn aside to follow false gods or pursue spurious theories and "isms".

Then, too, much of the extraordinary influence exerted by the country weekly upon its readers should be attributed to the liberal space devoted to plans which have as their objective some phase of community betterment or improvement of the town and district. In this respect owners and editors give much of their time and energy to worthy causes for which there is no recompense other than the satisfaction which comes from having assisted in the promotion of a beneficial project.

Alongside the more imposing and voluminous metropolitan daily which is "sufficient unto the day" for its clientele, the country weekly paper may appear comparatively insignificant, but the latter is picked up, read and re-read and its entire contents of news, editorial content and advertising is digested and re-digested for a week until the succeeding issue steps into the breach. And it is largely because of this assiduous and intensive study and reflection which the weekly newspaper inspires that it wields such an important influence on its readers.

The country weekly also can be counted upon for loyalty to its readers, subscribers and advertisers, for justifiable pride in the town and district which it serves and in so doing is worthy of support, in season and out of season, from the local merchants, the local board of trade, the local sports organizations, the local churches and the people of the district, for the local paper is a co-operative enterprise, even though privately owned.

Without the services of a sound, sane country newspaper, any community is bound to suffer and many worthy local ventures would languish and wilt of inanition and without the whole-hearted support of the many individuals which make up the community the local paper would lapse into a decline and eventually inherit a lamentable grave.

The fact that the great majority of the country weeklies have survived the gruelling test of a depression of unprecedented length and excessive severity—and the casualties have been surprisingly few—speaks volumes for the high regard in which they are held, perhaps often unconsciously, by the people they have served, and are serving so well and so tenaciously, despite great handicaps.

"Is ink so very expensive, father?"
"No, dear, what makes you think so?"

"Well, mother seems quite disturbed because I spilled some on the hall carpet."

Bicycles caused practically the same number of fatal accidents as privately owned automobiles in Great Britain in the last year.

HOW'S YOUR STOMACH?

YOU lose vital nerve force if you allow your stomach to distress you. Acid stomach, indigestion, gas or biliousness and "costiveness" cause the blood to be poisoned and will eventually destroy health and nerve force. This is what W. J. Fisher of 4 Sanford Ave., N., Hamilton, Ont., said: "I suffered with my stomach; could eat but very little and that would cause distress. I grew weaker daily and suffered from headaches. My weight went from 176 to 134 pounds. I took Dr. Pierce's Golden Medical Discovery and was soon able to eat normally. I gained in weight and strength and could resume my work. The 'Discovery' made a well person of me." Buy now!

Not New To Eskimos

Natives Of Remote Island Have Always Had Social Security

Social security is centuries old to the primitive Eskimos of remote Munivak Island.

They provide for their aged and needy through "gift festivals" a noted German scientist, Dr. Hans Himmelherber, disclosed after a five-months' study of the natives.

"All festivals are held mainly to exchange gifts, everyone making what he can to give away, even kayaks (skin boats) and 100-yard long seal nets, thus showing his value to the community."

"The gifts are piled up and then distributed by the most respected man, to the old and poor first. This provides an economic minimum for all members of the community, since many suffer undeservedly, being bodily incapable or unfortunate."

Apparatus has been developed by New York state scientists for taking full-length X-ray pictures of men and women in color. 2198

Preservation Of Liberty

American-British Friendship Best Guarantee Of World Peace

Under the heading "hang together or hang alone," an editorial in the New York Daily News endorsed that part of Lord Tweedsmuir's recent speech at the United States naval academy in which the governor-general of Canada said:

"The American and British navies are united in the same purpose—the preservation of liberty and peace."

The News foresaw difficulties if an attempt were made to put a formal naval and military alliance between Britain and the United States through parliament or congress.

"We would hardly like to sew ourselves up in an agreement to help Britain fight Italy or Russia," it argued. "Britain wouldn't like to be tied up to us for some conceivable South American or Mexican war."

"But for the two of us to keep our informal friendship unflinching warm is only common sense . . . as long as we maintain the world's two most powerful navies, any nation will think a long time before picking a fight with either Britain or ourselves."

The editorial added that American-British friendship is not only natural, "but is also, as Lord Tweedsmuir says, the best guarantee of both nations' safety and the best insurance against another world war."

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas blows up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, lunk and the world looks punk.

A more bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

Received Lloyd's Gold Medal

Admiral Evans Holds Rare Award For Gallantry At Sea

Admiral Sir E. R. G. R. Evans, who delivered his address as Lord Rector of Aberdeen University the other day, is the only man to have received one of Lloyd's gold medals for special gallantry at sea. He won it on the occasion of the Hong Moh disaster, when he dived into a heavy sea and swam with a life-line to the sinking vessel. Not content with that, he returned to bring an unconscious coolie to the small motor-launch, which had approached as near as possible. After that he dived in a third time to free the propeller from a piece of wire with which it had become entangled, reports the News of the World. He earned his famous title, "Evans of the Broke," when in charge of one of two destroyers which defeated six German destroyers off Dover in 1917.

SELECTED RECIPES

CRISP COOKIES

Temperature: 400 degrees F.
Time: 15 minutes.
2 squares unsweetened chocolate
1/2 cup shortening
3/4 cups sugar
1/4 cup "Crown Brand" Corn Syrup
2 eggs, unbeaten
1/2 cup flour
1 cup Benson's Corn Starch
1/2 teaspoon vanilla
1/2 cup finely chopped nuts

Method: Melt the chocolate in the top of a double boiler. Remove from heat and add the shortening, sugar, "Crown Brand" Corn Syrup, eggs, flour, Bensons Corn Starch and vanilla, beating the whole mixture thoroughly, being sure the eggs are added one at a time. Spread the mixture on baking sheets which have been oiled with Mazola. Sprinkle with nuts and bake in a hot oven. Cut while warm. These cookies are very crisp and easily made.

HOW TO OVERCOME ITCHING PILES

If you are annoyed with itching piles or rectal soreness, do not neglect the same or run the risk of an operation. Any itching, soreness or painful passage of stool, is nature's warning and proper treatment should be secured at once. For this purpose get from any druggist, a package of Hemoroid and use as directed. This formula, which is used internally, quickly relieves the itching and soreness and aids in healing the sore, tender spots. Hemoroid is a physician's prescription and is highly recommended. It is easy to use and it secures the highest of relief for anyone to risk an operation when a simple remedy, which is so pleasant to use may be had at such a reasonable cost.

Mahatma Gandhi

Reported To Be Leading The Life Of A Typical Villager

Mahatma Gandhi is now leading the life of a typical villager.

He has taken permanent residence in a hut on the outskirts of Shegaon village, seven miles from Wardha (Central Provinces). His wife and secretary live at Wardha, hence the latter goes daily to his master. The road to Shegaon lies partly through fields which become a morass during the monsoon, making communication difficult.

Nearly a hundred huts, some thatched, are scattered about the village. Gandhi's home, which is a tiled hut of mud, has an airy hall in the centre which serves as his study. A kitchen, storeroom and bath complete the home. At the side is a small stable for goats.

Gandhi has no program for the future these days aside from his daily schedule. The villagers attend his open-air prayers at dawn and dusk.

For years there has been a standing reward of \$1,000 for one pound of manufactured comb-honey.

A bud has the remarkable power to reproduce every part of a tree; stem, foliage, branches and fruit.

Public Too Curious

People Barred From Parts Of Windsor Great Park

The decision, reluctantly arrived at, to close to the public parts of Windsor Great Park near the Royal Lodge to secure privacy for the King and Queen is a lesson to people who have been indiscreet in their curiosity, comments a writer in the London Daily Sketch. The ruling may be relaxed later if conditions improve. The King and Queen like to regard Royal Lodge and the Great Park as a part of their private lives.

The Final Stop

You need 40 feet to stop your car at 20 miles an hour; 73 feet at 30 miles and 115 feet at 40 miles. At 50 miles you will need 166 feet—and if you keep on climbing in speed eventually you will need only "five or six feet"—depending upon your height. Moreover, then, you will be stopped for good.

Bird nests are important export articles of the Malayan islands. More than 3,500,000 nests of the edible swift have been imported to China in one year, for conversion into birds' nest soup.

Russia expects to increase its oil production 18 per cent. this year.

Firestone

He has a complete stock of Firestone High Speed, Oldfield, Sentinel and Ground Grip tires that will give you the longest mileage at the lowest cost. Drive in and let him serve you.

Firestone

Educational Needs Of Canada Different From That Of Great Britain

"The fine old fortifying classical curriculum of Oxford and Cambridge, to which he confessed he was sympathetic, has no place in Canadian legislation, Lord Tweedsmuir, governor-general, told the opening meeting of the 76th annual convention of the Ontario Educational Association at Toronto.

Addressing a gathering of hundreds of teachers, trustees, inspectors and administrators, the governor-general said he had not been in Canada long enough to know the peculiar educational problems here. Before his term expired he hoped to have "something useful" to say.

But he knew that the old idea of higher education, where a young man engaged in "humane learning" until he was 21 and after that acquired the particular technique needed for whatever profession he chose, could not apply in Canada.

"What we are concerned with in education is to enable youth of every class, including the poorest, to earn an honest living and at the same time to equip a boy for his life's work; to give him some background of education which will provide him with a wide perspective and a fund of utilitarian interests, and incidentally fit him to be a good citizen," Lord Tweedsmuir said.

That was the problem for educational authorities which must be faced with "common sense and a proper perception of realities." It was no good giving a boy a smattering of culture if he was going to starve; no good equipping him to earn a living and leaving his mind narrow and inelastic.

"I have been much cheered lately in visiting various technical and commercial schools in Ontario to find that an honest endeavor was made throughout the technical training to preserve an element of what I call the humanities," he said. "That is one aid to a solution.

"The other may be found in the way in which the technical training itself is conducted. If it is regarded not merely as the acquisition of a certain number of rules of thumb, but as a piece of serious mental training, then you are introducing the spirit of the humanities into the vocational side. You are producing not only technicians, but men and women with minds."

Canada's educational organization should be, from the nature of things, more elastic than that in Great Britain. Schools must be organized without pedantry and "with a due sense of realities. Authorities must be prepared to go beyond the schools.

The governor-general told the teachers their duties in large part were those of the pioneer. This had been brought strongly to him in visiting the drouth areas of the prairies where he found many teachers "on slender salaries, gallantly fulfilling their duties and sharing to the full in the discomforts of the depression."

"We praise, and readily praise, the fortitude of the prairie farmers; let us not forget the fortitude of the prairie teachers," he said. "As for your profession in general, I do not think it possible to exaggerate its value."

Attains Her Ambition

English Skating Champion Perfected Art In Ten Years

Miss Cecilia Colledge, who has won a world's skating championship at the age of 17, and who has been skating in Canada, is the daughter of a London West-end surgeon. Before 1928 she had never seen anyone skate, but after watching the British Women's Championship that year she decided on her life's ambition. Since then she has practised three or four hours almost every day, mostly on the London rinks during public hours, and when possible in Switzerland. In addition to her skating she is an accomplished dancer, swimmer and tennis player.

The total number of railway passengers carried in England during last November was over one hundred millions. The iron horse is not by any means yet ready to rust on the scrap heap.

Blood Transfusion Institutes

Have Been Set Up In Spain By Loyalist Government

Powerful weapons for "the next war" are being perfected on the battlefields of Spain, a "testing ground" closely watched by military experts of all nations.

While military men are thinking up new ways to kill, army surgeons are keeping abreast of them in the matter of saving life. One of the most outstanding, and least-heard-of, development of the Spanish civil war is the blood transfusion institutes set up by the loyalist Government.

Under the direction of Dr. Norman Bethune, Montreal surgeon, the Madrid institute has put the wartime blood donating on a mass production basis. Already Dr. Bethune has found it possible to conserve human blood for two weeks and the loyalists have developed a system of refrigerated army trucks for rushing bottled blood direct to the battlefield for transfusions in the front lines.

In the last three months, in Madrid alone, more than 45 gallons of blood have been donated by persons whose names are on a list of 2,000 donors, and 193 transfusions made. This is being duplicated at other strategic spots in loyalist Spain, providing much research materials for hospitals in time of peace.

Urges Fixed Easter Date

Toronto Minister Has Suggested Third Sunday In April

"Why not set Easter for the third Sunday in April, and follow it with a public holiday on Monday?" asked Rev. Dr. C. A. Williams at Howard Park United church, Toronto, pointing out that it was difficult to get the Easter spirit when it came so early in the year with snow on the ground and a raw wind blowing from the north.

"The present arrangement of jumping all over the calendar is bad for church and school, for trade and travel. It frequently spoils what ought to be the happiest season of the Christian year," said Dr. Williams.

"We talk a lot about the Christmas spirit," Dr. Williams added. "Why then do we think so little about the Easter spirit?"

Safety In The Air

Proportion Of Accidents Small Compared To Passengers Carried

Of the 200,000 passengers carried by British air companies last year in Britain and overseas, only 12 were killed—one passenger in every 16,666. Statistics for foreign air lines are scarcely less impressive. Day by day, across the Old World and the New, across inaccessible mountain ranges, arid desert tracts, and wide oceans, the machines hum on their normally uneventful paths. Contemplation of the millions of miles safely traversed (Imperial Airways alone expect to cover 8,000,000 miles this year) helps to keep a sense of proportion in the face of such occasional disaster as attends all human progress. London Daily Mail.

Taken For Granted

A certain judge attended a function and left his hat and coat in the cloakroom. The attendant, who knew him by sight, did not give him a ticket.

When the judge left he was given his correct belongings.

"You did not give me a ticket when I came in," he said, "so how do you know these things belong to me?"

"I don't," replied the attendant. "I only know that you handed them to me."

Speaks For Itself

It looks like an ordinary cigarette box and it is an ordinary cigarette box, but as you open the lid, the box actually speaks and you hear a voice ask, "Will you have a cigarette?" This is without doubt the most fascinating and intriguing novelty of the century. 2198

Lag In Production

Russian Government Discloses An Alarming Condition In Farm Operations

The Russian Government disclosed an alarming industrial and agricultural lag for the first quarter of 1937 in its program designed to force production even beyond the point fixed by the second five-year plan.

The backwardness of the Spring planting campaign almost 315,000,000 acres behind schedule alarmed the Government, and raised fears the plan, which ends this year, would not be completed on the scale designed as a celebration of the first 20 years of Soviet rule.

Planting for 1937 at the end of March should have reached a total of 328,000,000 acres, but a survey of the U.S.S.R. showed only 13,200,000 acres have been planted. In the corresponding period last year 54,408,000 acres had been sown.

Farmers claimed the cause lay in the backwardness of Spring but officials charged it was due to lack of preparation and carelessness, and was rapidly growing into a dangerous situation because of the shortness of the growing season in vital agricultural belts.

Wonderful New Organ

One Of Recent Features Added To Paris Opera House

A "light" organ on a vast semi-circular panorama 85 feet high and 20 tons in weight is one of the many wonderful new features of the Paris Opera House, reopened recently in the presence of the president, M. Lebrun.

The opera house, which is still one of the largest and most luxurious places of entertainment in the whole world, has been entirely renovated and largely reconstructed since it was closed after the fire last September.

The huge panorama, which has been installed is made of steel, covered with asbestos and sheets of mica, and will reflect the sound into the auditorium without causing an echo. Divided into two parts, the panorama can be hoisted up rapidly by an electric crane.

All lighting effects will be automatically controlled by an electrician with a special observation post opposite the prompter.

Here he will be able to order the sun to set and cause soft moonlight to flood the "sky" behind the stage, which is so large that a moderate-sized theatre could be placed upon it.

Rules Of Happiness

Asked for his rules of happiness in life, R. C. Smith, dean of Toronto advertising men, on his recent birthday, replied: "Do anything that's asked of you, and do it willingly! Strive to do your duty always, and give your clients the full benefit of your knowledge and experience."

The tails of Russian squirrels are used to make camel's hair brushes.

Eminent Meteorologist Says The Climate Of Canada Is Steadily Growing Warmer

Science Saves Fruit

X-Ray Being Used To Detect Flaws In Oranges

Examination by X-ray is practiced by California fruit growers to detect flaws in oranges. At East Pasadena the first machine built for this use has produced satisfactory results. The oranges are carried over a 100,000-volt X-ray tube by a conveyor belt on either side of which are windowed boxes inclined at 45 degrees. Testers peering through the windows see silhouettes of the passing oranges on a fluorescent screen. The sound, juicy oranges appear dark; those that are unripe, sour, frozen or granulated appear light and are thrown off the belt when the tester moves a handle. The lead used in the machine to protect the testers from the effects of X-rays brings its weight to a ton.

Last summer the research divisions of the Department of Agriculture conducted investigations to find out why some tomatoes decay faster than others and how grapefruit can be kept fresh longer while awaiting sale on the stands. It was found that the fungus which produces the decay of tomatoes after the fruit is harvested develops rapidly at temperatures ranging from 75 to 85 degrees Fahrenheit. This is held by the Bureau of Plant Industry to explain why so many commercial tomatoes harvested and shipped green without refrigeration decay. As to the grapefruit, it is recommended that the fruit be pulled instead of clipped from the tree and immersed immediately in an eight per cent. solution of borax. The cost of this treatment is only about one-half a cent for each 100 pounds of fruit, and the loss is reduced by two-thirds.—New York Sun.

Using Roller Skates

Employees Of Tire Corporation Give Customers Snappy Service

Somewhat lost on 100,000 square feet of floor space in new and larger quarters, 18 employees of the Canadian Tire Corporation in Toronto have solved the problem of providing snappy customer-service by wearing roller skates. Alfred Stevens, 200-pound manager, conceded that he and a few others had provided customer-laugh as well by falling. But the experiment was such a success that 18 pairs of skates were ordered. They are the type used in roller-skating rinks.

Cobwebs are made by a tiny spider, but because it seldom is observed at work, many people believe the webs to be formed only of dust and lint. "Cob" is an old English word meaning spider.

It will be pleasant news to those who don't like long periods of sub-zero temperature to learn that Canada's climate is continually growing warmer. This information comes from no amateur or optimistic prophet but from one of the world's most eminent meteorologists—Dr. Moses B. Cotsworth, of Vancouver and London.

In No. 7 of his well-known scientific booklets, prepared at the request of the British Association of Science, Dr. Cotsworth has much to say on this subject. The booklet, entitled "Geology's Interest Hinges on Climate Changes", is a brilliant summary with numerous graphs, charts and maps. Dr. Cotsworth's contention is that creation is continuous. This continuity is evidenced by climatic changes and evolution which, mainly through the ever-continuous glacial period, have variably formed, rested and renewed the surface of the earth in most countries and latitudes.

Dr. Cotsworth shows that varying winds, retreat of glaciers, Polar currents, earth transformations, trends of ocean currents and other agencies mainly are responsible for changes of climate. It is interesting to note, from information gathered over 13 years, that the recession of the main Alaskan glaciers continues, bringing a warmer climate to that country and to the whole of North and Western Canada. This recession is extending down the Canadian and United States Rocky Mountains, and combined with it are definitely will be many hundreds, probably warmer winds and sea currents. It thousands, of years before Canada might enjoy a semi-tropical climate, like Bermuda, but it will be a comparatively limited period before we have an all-year climate not much colder than Northern Scotland, he says.

There is much useful information in this booklet, mainly published to increase the teaching of geology in the schools. It treats of changes in earth surface, of reptiles, mammals, and man, the age of the first being placed at 40,000,000 years and the last at 1,000,000. From the start of the cooling of the earth some 155,000,000 years ago, the sleeping giant of pre-history is revived as well as the outstanding events of its majestic life history during the long geologic ages. On this is based the argument that climate is a matter of continuous change.—Ottawa Journal.

Has Far-Reaching Effect

British People Find Rearmament Increases Cost Of Living

There does not seem at first sight to be any connection between guns, ships, explosives and the cost of living but there is. British people are finding that not only have they to pay heavily for rearmament but they have to pay more for their ordinary requirements.

The price of steel is to go up on May 31 by agreement with the Government, and this is going to increase the cost of automobiles, steel for housing and other constructional works. Therefore, the cost of cars, home rents and of new houses will go up.

Enormous quantities of textiles are being bought for uniforms, army blankets, etc., with the result that wool has gone up 40 per cent. to fill orders not only for Britain but all countries now embarked on rearmament programs. The result is the public is having to pay more for suits, overcoats, underwear, shirts and blankets.—St. Thomas Times-Journal.

Scored Anyway

A good story about Sir Thomas Beecham is told in a recent issue of the Daily Sketch. When a Continental impresario objected to "Figaro" being conducted without a score, amendment was promised, and next time the score was on the desk. "Excellent, and much improved by the score," was the verdict. "Thanks," said Sir Thomas, "but that score was 'Parsifal' upside down. So you see I scored anyway."

Initials Have Never Been Smarter!

Household Arts by Alice Brooks

Linens and Dainty Accessories Easily Smartened This Way

PATTERN 5782

Initials have never been smarter! And one asks no smarter initials than these which take form quickly by simply embroidering a few single stitch flowers and French knots! Make blouses and hankies bespeak your ownership with a two or three-letter monogram, while various household linens may be just as personally marked this easy way. A single color, two shades of a color, or black with a color are all smart. In pattern 5782 you will find a transfer pattern of five complete alphabets, two 2-inch, two 1½-inch and one ¾-inch; information on the correct placing of initials for monograms; illustrations of 20 stitches used.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

J. E. Gooder - Editor & Manager

The World of Wheat.

By H. G. L. STRANGE
Director "Crop Testing Plan."

A great scarcity of wheat exists! The world is short 500 million bushels of wheat for its consumptive needs!

Such are the types of newspaper headlines that have appeared in recent months. They afford to most people a satisfactory reason to explain why price bounded up from \$1.00 last fall to \$1.50 recently.

During the last three weeks, however, price has fallen some 20 cents a bushel. Many are wondering why this should be if there really exists such a deficiency of wheat in the world as the newspaper headlines indicate.

The answer is that the headlines have given us entirely the wrong impression. There is no scarcity of wheat in the world, as most people understand the word "scarcity." The truth is simply that the supplies available for overseas export are scarcer than usual, but are far from being actually deficient.

The average world carryover on August 1st each year is about 600 million bushels. On August 1st next the carryover will be scarcer than this, but will still be about 500 million bushels, which of course is a lot of wheat. The United States will have about 100 million, and Canada some 40 million still left on hand.

Following factors have tended to raise price: Dry weather in the southern hemisphere -- Expected curtailment of Argentine exports -- Many complaints of unfavorable European weather -- Uruguay lowers import duty on wheat -- Norway purchases Australian wheat.

Following factors have tended to lower price: Improved political situation and lessened European demand -- Indian government wheat estimate 30 million bushels above last year -- Expect Indian wheat shipments of over 10 million bushels by July -- U.S. winter wheat crop progresses favorably in most areas -- Rumania permits further wheat exports -- Grain shipments resume from Montreal -- Spring rains occur in Northwestern U.S. and Western Canada.

Evangelical Church Notes.

Next Sunday is Mothers' Day and every mother and all who would honor their mothers are urged to be present. A Mothers' Day sermon will be preached in the morning and in the evening there will be a coronation sermon entitled, "Jesus Crowned King."

On Friday May 14th, at 8 p.m., the annual meeting will be held in the church. Every member and adherent of the church is invited to attend. All money subscribed toward the church should be in at once, so that it may be reported.

CARD OF THANKS

We wish to thank all our kind neighbors and friends for their assistance and sympathy during our recent bereavement.

THE FERGUSON FAMILY

Voice From the Wilderness.

The following is a story told at the annual meeting of the Red Cross Society about the supplies issued in one of the large drought areas by Mr. C. F. Willis, Government Relief Office for the Hanna District:

"I have not a prepared speech, but am just a 'Voice from the Wilderness' from the heart of the drought area. For the past sixteen months, I have been making a survey through this district, and in the course of my work have visited homes, sometimes where there are ten in a family, and I know conditions very thoroughly, and until we got Red Cross assistance the people were living in a very low-spirited way, thinking—'Is there nobody who cares?'"

"They were getting assistance through the regular relief channels, but bedding and clothing were depleted, very often beds were covered with cowhides, and that is not one case but many cases, and I am giving you facts. I must have seen fifty beds, in my survey, with cowhides to cover people; old overalls patched and quilts made out of old coats and dresses, all sewed together, and that would make up their beds. I was very pleased when I got a telephone message one day telling what the Red Cross was prepared to do. I immediately got on the telephone and told the people what the Red Cross was going to do for them—it just seemed to them like 'Manna from Heaven.' I have a Ford car, V-8 and the back of it was like a young box car, piled full of bedding. They would gather round me, mothers would come to me and say, 'Well, we thought it was a joke about Santa Claus, but we believe there is one now, and we believe there is a God after all.'"

"Red Cross has come to our aid in a wonderful way. My last remark to you is, we do appreciate every effort that you have made, and many a mother is praying for Red Cross out there in my district through the effort that has been made."

The above is but one phase of the work that has been done by the Red Cross Society. If you think the cause is worthy of your support, send your subscription either direct to Calgary or through the local secretary, W. A. Austin.

Burnside Notes

Lone Pine W.I. will meet Thurs-
day afternoon, May 13th, at the
home of Mrs. Harry Richardson.

Miss Ruth and Mr. Samuel Thom-
man were Tuesday supper guests of
Mr. and Mrs. B. Woods.

Mr. Rhinehart Fritz spent Sun-
day at Mr. Hugh McLean's with
his brother Fred.

Miss Nettie Wall was visiting on
Sunday with Mr. and Mrs. Wm.
McCulloch.

Mrs. B. Woods, Miss S. Zook
and Mrs. Eckel were visitors Thurs-
day of last week with Westcott
friends.

Mrs. A. E. Thompson and Mrs.
C. L. Cipperley were Calgary visitors
for several days last week, returning
Sunday with Mr. and Mrs. Charles
Welch who spent the day at the
Thompson home.

Mr. George Metz accompanied by
son Dick and Miss Salina Dedels
were Sunday visitors with Mr. and
Mrs. Harold Metz at Rockyford.
Miss Salina Dedels and Fred Metz
were Saturday evening guests of Mr.
and Mrs. Otto Bittner.

Mr. and Mrs. Otto Faas and Ron-
ald, Gus Bittner and Bill Wulawka
were Sunday visitors with the Eckel
family. Miss Evelyn Charlton,
Ronnie Lyons and Bob Eckel were
Sunday afternoon visitors at the
George Burns home.

Have you tried one of our \$1.00
Work Shirts? They're extra good
value.—T. E. Scott.

Westcott Notes.

Westcott Women's Institute met
Thursday last at the home of Mrs.
Harry Steckley with ten members
and ten visitors present. Roll-call
was answered by giving a house-
cleaning hint. On account of bad
roads this was the first meeting of
the year and a lot of business was
attended to. The meeting was
again favored with a visit from the
constituency convenor, Mrs. N.
Eckel, and her cheery presence was
greatly enjoyed. Mrs. Harry Steck-
ley was elected delegate to the Cal-
gary conference.

A paper on Household Economics
was given by Mrs. Hughes, followed
by some community singing, and a
paper on Education and Better
Schools was given by Mrs. Spillman.
The three visitors were then called
upon to judge the apocryphal, first
prize going to Mrs. Harry Steckley
and 2nd to Mrs. Ed Klinek.

Lunch was served by the hostess
and the meeting adjourned. Mrs.
Ed. Klinek will have the May meet-
ing.

Mountain View Notes.

Among Mountain View folks in
Calgary last Tuesday were Mr. and
Mrs. Finley, Miss Evelyn Barnes,
Mrs. Basil Atkinson and Mr. Eric
Atkinson.

Mrs. Goldie spent Friday and
Monday in the district assisting her
daughter, Miss Goldie, with the
training of Mona pupils for the
music festival to be held at Olds on
Friday.

As Mr. George Clarke lost two
horses recently, several neighbors
clubbed together to put in his crop
Tuesday. Among those going with
tractors and teams are Messrs. E.
Cullen, O. Aussenhus, Garnet Tighe,
Ed Blain, C. Archer, B. Atkinson
and M. Archer.

**Stock-Judging Camp
for Boys at Exhibition**

A Boys' Camp of instruction and
judging of grain and livestock will
be held this year in conjunction
with the annual Calgary Exhibition
and Stampede, it was stated today
by E. L. Richardson, general man-
ager.

The camp has been sponsored by
the federal and provincial depart-
ments of agriculture, the University
of Alberta and the Exhibition board.

It will be open to boys 14 years of
age or over, and under 21 years, at
date of July 5th, 1937. Entries
close June 15th.

**New Minister
of Agriculture**

D. B. Mullen (S.C.), Edmonton,
is expected Saturday to be sworn-in
as Alberta Minister of Agriculture
in succession to Hon. W. N. Chant,
Minister of the Portfolio since the
inauguration of the present govern-
ment in September of 1935.

Mr. Chant's resignation was re-
quested by Premier William Aber-
hart as effective from April 30th,
but as the minister refused to resign
he was ousted by order-in-council.

The ousted minister is the third of
the original ministers of the Aber-
hart regime to either resign or be
asked to resign. The first was C. C.
Ross, original minister of lands and
mines, who was asked to resign
when Charles Cockroft, original pro-
vincial treasurer, resigned of his own
volition. Now Mr. Chant has been
asked to resign.

WEEKLY SERMONETTE

Neglect is all that is needed to
ruin a man. A man floating in a
boat above Niagara Falls need not
move an oar or make any effort to
destroy himself, he has only to
neglect using the oar at the proper
time, and he will certainly be
carried over the cataract. Let no
one infer that because he is not a
drunkard, or an adulterer or a
murder, that he will be saved.

WORLD HAPPENINGS BRIEFLY TOLD

Members of the royal commission inquiring into Canadian penal conditions announced there would be no more public hearings.

Lethbridge will have a new 700-acre airport ready for inauguration of the trans-Canada air mail some time this summer.

In its first four months of operations, 5,441 loans aggregating \$2,091,158 have been made to property owners under the home improvement plan.

C. L. Coggon, railway mail clerk, Moose Jaw, obtained 100 per cent. in a sortation examination held by the post office Feb. 26, it was announced in the post office weekly bulletin.

President Roosevelt intimated he intends to appoint Mrs. J. Borden Harriman, New York and Washington society woman, United States minister to Norway.

Winnipeg city council has voted \$1,960 for coronation celebration expenses. Half the amount will be devoted to four pageants representing various sections of the British empire.

Dr. Halbert L. Dunn of the United States census bureau told the conference of state health officers that one-third of all persons killed in automobile accidents are tourists far from home.

Increasing revenues to the railways from the expanding Canadian mining industry would bring constant reduction in annual railway deficits, Hon. Eugene Paquette (Cons.-Lanzon) predicted in the senate.

Was Made Welcome

Governor-General Has Warm Friends In United States

When John Buchan was here in 1934 speaking at the opening of the great new library of Columbia University, he was welcomed in his own person and for his varied contributions, in both the written and spoken word, and especially to the English-speaking youth of the world. He has returned in an official capacity with a title which it is difficult for others than Scots to frame or pronounce aright. . . .

The Scots have a word for the most cordial hospitality that can be shown a guest. It is a welcome into the "ben"—that is, into the best room of the house. The President in bidding this distinguished visitor to come "ben the White House" has shown him the most cordial welcome that the people of the United States can offer a visitor engaged in what he has himself called the "noble merchandising of civilization."—New York Times.

HELP WARD OFF 'FLU THIS WAY

"Keep resistance high, organs clear and active, blood pure," say doctors

Don't let 'Flu get you down . . . beware of the epidemic that is raging! Keep on the job. Help avoid infection by keeping your system free from harmful wastes and poisons that accumulate and lower your resistance. Take Fruit-a-tives, the prescription of a famous Canadian doctor. Fruit-a-tives contain extracts of fruits and herbs and act to stimulate the liver to normal healthy action; activate the flow of bile, cleanse the intestinal tract of harmful wastes and poisons, tend to purify the blood stream of poisons and acids. Keep your system toned up to perfect health. It is your best insurance against 'Flu. Fruit-a-tives are on sale at all drug stores. Insist on genuine Fruit-a-tives.

MANY-OCCASION FROCK DE- LIGHTS TOT WHO ADORES PRETTY CLOTHES

By Anne Adams

All dressed up with oh—so many places to go, is the cunning youngster who wears Pattern 4301! She'll wear it to school (provided it's made of a sturdy tub cotton) and even to a party when stitched up in a dainty fabric! Mother knows the saucy touches that delight a small girl's heart, and any tot will dote on puffed or flared sleeves, a "classic" Peter Pan collar, dainty ruffles and a skirt that flares out gracefully above chubby knees! And all this perfection is easy as can be to cut and stitch, for the clearest of detailed directions are included. For fabric—why not dotted swiss, percale or dimity for "everyday"—and a crisp taffeta for parties?

Pattern 4301 is available in sizes 2, 4, 6, 8 and 10. Size 6 takes 2 1/4 yards 36 inch fabric and 1 yard lace. Illustrated step-by-step sewing instructions included.

Send twenty cents (20c) in coin or stamps (coin preferred) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number, and send order to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

Estimated By James Watt

Inventor Worked Out The Formula For Horse Power

In James Watt's scrapbook, which is now in the Birmingham Reference Library, appears under the date of February, 1782, his detailed computation of horse power, based upon the experiences of Wrigley, his millwright. At that time horses were employed to drive mill machinery, and Watt estimated that the average cart horse developed 22,000 foot pounds of work per minute. Anxious to give good value to the purchasers of his steam engine, Watt, in using the term "horse power," increased his estimate by 50 per cent. and thus it came about that the 33,000 foot pounds per minute formula was evolved.—Industrial Britain.

The humpbacked camel has a spinal column as straight as that of any other animal. 2198

Habit Soon Grows

Although People Start Amateur Photography In Small Way

What's a minibug? It's a bug which bites you and makes you one more member of a vast army of minicamera (miniature or candid camera to you) enthusiasts.

The menace of the minibug is its subtlety. Minicameras are so small and comfortable in the palm of your hand, so quick to catch a picture when the subject isn't looking—and some may be had for a trifling sum. And they're good, too. So, you say you'll buy an inexpensive one, just for the fun of it. Of course, "you'll never get real serious about it."

But when the minibug bites, and the infection spreads through your bloodstream, you realize you should have one of the real, professional cameras, the kind that cost from \$110 up. They have fast lenses, lightning shutters, and, besides, if you're going to make a hobby of photography you owe it to yourself to do it right.

So you buy the more costly camera. And now the minibug has you for fair. You learn that to take pictures properly the exposures must always be right. Hence you need an exposure meter. Since it will save you from wasting film you regard this as an economy. Then you "just have to have" a telescopic lens, because many of the best "shots" must be taken from a distance, like birds, animals and good-looking blondes. And now you are well infected—and ready to discover that you haven't put a nick in the available assortment of gadgets, what with extra fast lenses, special view-finders . . .

Are you dismayed? Not at all. You immediately get out pencil and paper and begin to figure how . . . ? That's the worst of the minibug!—New York Post.

A Western Story

Prize-Winning Book By Kathleen Redman Strange Deals With Farm Life

The prize-winning book, with the West in her eyes, which under the title "A Modern Pioneer", recently won for its author, Kathleen Redman Strange, the thousand dollars offered by George J. McLeod Limited of Toronto and the Dodge Publishing Company of New York, with the co-operation of the Canadian Authors' Association, is scheduled to appear on the market this month.

Mrs. Strange, is the wife of the internationally known grain expert, Major H. G. L. Strange and is already well-known to the reading public of Canada for her stories and articles which have, from time to time, appeared in our magazines and newspapers. Her book should be looked forward to with special interest, since it describes in an intimate and lively fashion, every-day life on a typical prairie farm. It tells particularly the story of the farm women, in whose struggles and triumphs, hopes and disappointments, Mrs. Strange herself shared for ten years. Her book is a fitting tribute to the splendid courage and endurance of the women of the farms, to whom it is dedicated.

One of the judges, Dr. Pelham Edgar, says of the book, that it is not only admirable as literature, and as a personal record, but that it should prove of practical value for intending settlers, since the conditions depicted, though actually set between the years 1920 and 1930, are much the same to-day and cover both boom and depression periods in prairie life.

It is interesting to note that out of the 174 manuscripts received in the competition, on many subjects and varied localities, that a story of Western Canadian prairie life should have been chosen. It can be said to be an indication of the interest taken in the West, in the people and their problems.

Japan Buying Iron

Has Purchased Construction Machinery Used At Boulder Dam

Japan, urgently needing steel in her military and industrial expansion, is buying construction machinery in building Boulder dam. The Naissea Court, chartered steamer, took 450 tons of machinery from Los Angeles harbor, bound for Yokohama and the steamer City of Los Angeles started for the Osaka junkyards carrying 6,000 tons of scrap iron.

Condition Needs Correcting

Faulty Posture Becoming Very Marked In Young People

Public school pupils of London, Ontario, may be given special instructions in posture and carriage.

A recommendation that such training be afforded was made to the board of education by a woman member as a result of visits to the schools. The trustee observed that children leaned against their desks when asked to stand. She believes they can be taught to sit straight, to stand erect and to walk more gracefully.

If her proposal wins the sanction of the board, it is likely the director of physical education will be asked to correct this condition, beginning with the next school term.

The suggestion should be taken up by boards in other cities and towns of Ontario. Faulty posture is quite common and while some may argue instructions in this subject have nothing to do with education, there is no denying the fact it often causes physical ailments and the latter often retard progress of pupils.

Increasing use of the automobile and other modern luxuries tend toward development of a race of hollow-chested, round-shouldered people. To counteract this tendency instructions in correct posture and carriage during public school years, seems like the logical thing.—Sarnia Canadian Observer.

One Way To Move It

Maryland Man Used Dynamite To Get Car Out Of Mud

Impassable conditions of the roads near Thurston, Maryland, recently caused a resident to blow up his car with dynamite when it became stuck in the mud. The man was on his way home when his car stuck. Efforts of neighbors and a garage man to move it only caused it to sink deeper into the mire. Someone suggested dynamite. Mr. Gregg took a collection among his helpers, and bought several sticks of the explosive with the money. The blast moved the car all right. It landed beside the road—a mass of wreckage. The car was a 1926 model.

Retirement Age Fixed

Retirement ages for officers of the Royal Canadian Mounted Police have been fixed in amendments to rules and regulations of the force published in the Canada Gazette. Retiring age of the commissioner will be 62, his deputy 61 and all other officers 60. The fixing of the retirement ages is understood to be intended to speed up promotions within the force.

Denmark has 3,326 miles of railways within its confines.

IF I COULD ONLY GET AN UNBROKEN NIGHT'S REST!

Up time and again because of kidney and bladder weakness? Head aches with poisonous wastes? Head nature's to soothe and tone up the kidneys—enjoy unbroken rest—see how much better you feel. "Prove their merit through their use!" 274

GIN PILLS FOR THE KIDNEYS

Gardening

Grass seed may be compared to good tobacco. The best seed is a mixture or blend of different grasses. A proportion of those much more expensive and slower germinating but permanent grasses will be mixed with a certain quantity of cheap, quick-growing seed. It is the former which form the fine-stemmed, deep green permanent turf which goes on improving with the years. A certain amount of the cheap, quick-growing kinds are needed to shelter and nurse along the others for the first summer, but sowing these alone is not sufficient for a permanent lawn. Hence, a well balanced, high quality mixture is recommended.

Grass makes its growth in cool weather; therefore, early sowing is advisable.

The ground should be allowed to settle after digging or plowing, and then levelled again. If there is time it is advisable to repeat this process several times. The top soil should then be raked fine and the grass sown at a liberal rate, once across and once lengthwise. This double sowing insures an even distribution. For obvious reasons seed is sown on a day when there is no wind. In covering, the gardener is advised to rake one way only and then firm the soil with a heavy roller or pounder.

The first actual gardening operations, if the ground is ready and free from surplus moisture, will be to plant those extra early flowers like sweet peas, cosmos, marigolds and other hardy annuals and almost any of the perennials. This is also the time, authorities advise, to get in grass seed. In the vegetable line, first sowings of lettuce, spinach, carrots, beets, and even potatoes, will be made.

At first, one is advised to make small sowings and so spread out the harvesting season. Then, if winter returns again after these first seedings are made, the loss will be trivial. Seed, after all, is the cheapest thing about gardening and one of the few factors over which the gardener has absolute control. On these counts alone, it is highly important that only the best seed from reliable Canadian sources should be used. Everything else is wasted; soil, fertilizer and labor if the foundation—seed—is not right.

London is preparing to install streamlined trains in its subways.

**Don't Let Foods
Stale**

Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.

Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

Don't gamble with Weak Yeast!

BAKE WITH ROYAL —always full strength

Each cake of Royal is protected by an air-tight wrapper

REALLY delicious bread demands an absolutely pure yeast—one that's full strength and pure. Otherwise, you run the risk of spoiled dough—heavy gray texture, a sourish taste and smell.

You can always be sure of Royal Yeast. Every cake comes sealed in an air-tight wrapper—secure against contamination, its full leavening power assured. And Royal is the *only* dry yeast that has this special protection.

7 out of 8 Canadian housewives today insist on Royal when they bake with a dry yeast. They know it is reliable. For fifty years Royal has stood for highest quality.

Be sure to ask for Royal when you buy dry yeast. Don't risk baking failure with weak inferior yeasts.

Send for FREE Booklet

To get uniform results in bread-baking, it is important to keep the sponge at an even temperature. The "Royal Yeast Bake Book" gives instructions for the care of dough. Send coupon for free copy of the book, giving 23 tested recipes for tempting breads, coffee cakes, buns and rolls.

U.S. Air Base

To Set Aside 960 Acres Near Fairbanks, Alaska

President Roosevelt set aside 960 acres near Fairbanks as a prospective site for the United States army's proposed \$10,000,000 Alaskan air base.

An exclusive order prohibiting settlers from entering the area said the land was being "reserved for use of the war department for military purposes." Army sources, however, described the site as a possible location for the new base.

THE YELLOW BRIAR

A Story of the Irish on the Canadian Countryside

By PATRICK SLATER

By arrangement with Thomas Allen, Publisher, Toronto.

CHAPTER III.

Jack Trueman's dog was a black and tan collie with a bob-tail. His was the general purpose breed of a drover's tyke; and he was all dog. Jack claimed to own the sharp-eyed, self-reliant fellow—but that was a matter of opinion, merely. In the dog's way of looking at things, Rover owned Jack Trueman; and Trueman—he owned me. When a smart, clever dog has something of his very own, you understand, say a smelly bone or an unruly boy—naturally he thinks highly of his own property. And he puts up with the smell of his own bone and the kicks of his own boy as one of the inconveniences of proprietorship, just the same as you and I put up with taxes.

Rover liked, at times, to have his boy throw sticks for him; and, of course, sticks can not be thrown if they are not fetched. But he only fancied that sort of thing in moderation. When the sport ceased to amuse him, he would cock his leg against a post, and then run away on business of his own. This was clear evidence, you will agree, that Rover was the chief executive.

Jack Trueman had not bought the dog; nor had he been given the dog. One day, Rover had left the drover's team he was looking after, and had dropped in, casual-like, to inspect the alley at the side and the stable in the rear of the Tavern Tyrone. He fancied the look of the place and the smell of the slop bucket. Offhand, he decided he would like to own a boy who lived round an interesting place like that. So the two of them struck up a bargain on the spot—at least they thought they did. There was a mutual misunderstanding so complete that things worked out all right.

One June day, we were down to the foot of Berkeley Street to see a double hanging; and that surely was one glorious well-filled day. There was a high stone wall clear around the prison which stood close to the bay shore; and the Fair Grounds lay open to the west. Two men, Turney and Hamilton, were to be hanged on a Tuesday morning. To give the public a tidy view of the drops, both before and after taking, a double gallows had been built facing the Fair Grounds and high on top of the prison wall.

Before the early risers were abroad, hundreds of heavy farm carts and lumbering wains came creaking into town with their loads of merry, holiday-making country folk from far and near. Along the muddy roads came also bands of stinky farm lads, faring stoutly on foot, with stick in hand and bag on back, stepping down 30 miles or so to see the doings. Two men were to be killed by the law in the morning as an example to the public; and the schools throughout the district were closed that the children might benefit by so valuable a lesson in morals and good living. That day the taverns of Toronto did a stirring business.

"Your soul to the devil!" said young Jack to me. "Let us hooray down and see the necks stretched."

The hangings had been set for ten o'clock in the morning; but an hour ahead of time there was a good-natured throng of thousands jostling one another before the grim prison walls. It was the sort of crowd one sees nowadays at a big country fair. Neighbors were greeting neighbors, and joshing over local affairs. Men carried their liquor well in those days; and, of course, mothers had brought the young children in their arms. What else could the poor dears do?

A stir among the men on the prison walls told us the death procession was coming. A hush of awed expectancy fell upon the great throng. And this gaping crowd, stirred with thoughts of human slaughter, was standing in the most humane and tolerant colony Europe ever established beyond the seas! New England had been developed by

the labor of convicts transported to be sold as serfs on an auction block. We are often told of the Mayflower landing the Pilgrim Fathers on the Plymouth Rock. Oh yes! But we hear little of the fact that for a century every other merchant ship touching a New England port landed a cargo of convicts on the Pilgrim Fathers. The outposts of those colonies were pushed westward by rough frontiersmen who murdered as they went on frolics of their own. The southern colonies were developed by slave labor, and the full wages of that slavery have not yet been paid. One of the first laws passed in Upper Canada in 1793, provided for the abolition of slavery; and in dealing with another human, there has never been a time or place in Canada, save in her wretched prisons, that any man could with impunity make his will a law to itself.

You ask what brought thousands of people together to see such a terrible sight as a double hanging; and I answer you that fifty thousand of the likes of you would turn out any morning to view a well-bungled hanging to-day. A murderer is a celebrity; and people run open mouthed to see a celebrity, to hear him speak and see him decorated, or hanged—as the case may be. Every crowd hungers for excitement and is looking for a thrill. Every mob is by nature cruel and blood-thirsty. With all his clothing and culture, man remains a savage, a fact that becomes obvious when a few of them run together.

The breath going out of thousands of throats made a low murmur as the murderer, William Turney, in his grave clothes and pinioned, came into public view and stoutly mounted the stairs of the scaffold platform. A priest walked beside him. Behind them strode a hangman, who was closely masked.

It was a matter of good form—and decently expected in those days—that a murderer make a speech and exhort the public. A lusty cheer went up as William Turney stepped smartly forward to make his speech from the gallows. His was an Irish brogue; and his voice was loud and clear.

"Die—like—a—man!" shouted loud-voiced Michael, the smuggler.

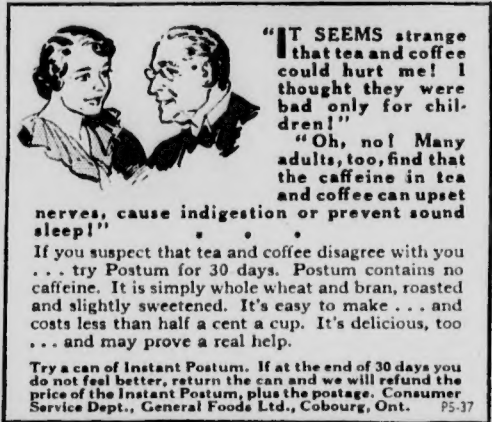

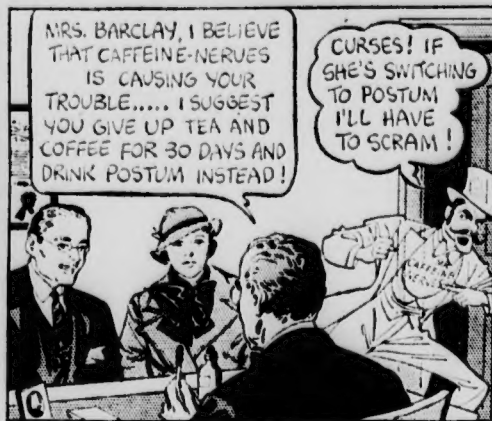

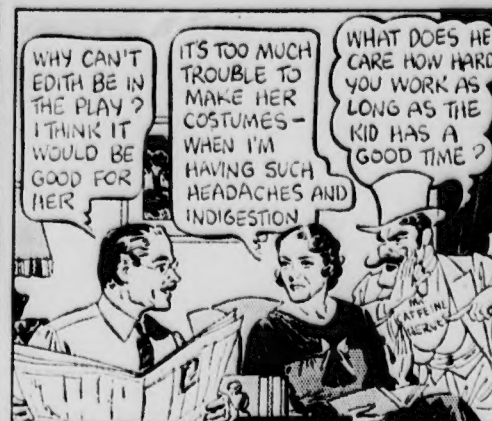

Turney had been working the fall before as a journeyman tailor at Markham Village. He dropped into a local store one dark night to get a jug of whiskey to take to an apple-paring bee. As the clerk, McPhillips, was bending over the liquor barrel, Turney stove the man's skull in with a hammer; and then rifled the till. He turned off the spigot, blew out the candles, closed the wooden shutters, and quietly went home to bed. The dead body was not found till the morning after. No one had seen Turney abroad the night before. He came under suspicion the next day because he rode to Toronto on a borrowed horse, and bought himself for cash money a pair of boots and a leather jacket. But that, you'll agree, was not hanging evidence.

Turney, however, needed money for his defence; and while lying in gaol at Toronto he got a letter smuggled out to his wife. The poor simple woman was no scholar; and she asked a neighbor to read it for her. The letter told her the sack of money was hidden under a loose board in the floor of their backhouse at Markham Village. He bade her get the money and give it to the lawyer man. So the damaging evidence leaked out. How much wiser to have let the solicitor's clerk visit the privy!

On the scaffold Turney made a rousing speech. He shouted to us that he had been a British soldier in his day, and was not afraid of death. Turney thanked us all kindly for the compliment of coming to his hanging. It was sorry he was for killing the poor man, McPhillips, who had never hurt him and had treated him as a friend. The crime, he told us, had not been planned, but was done on the spur of the moment. The devil had tempted him; and he fell. He had run home that dark night in a terrible fear. The wind in the trees sounded in his ears like the groans of poor tortured souls in hell. Hanging, he told us, was what he deserved. Let it be a lesson to us all.

(To Be Continued)

THE SHOW GOES ON!

"IT SEEMS strange that tea and coffee could hurt me! I thought they were bad only for children!"

"Oh, no! Many adults, too, find that the caffeine in tea and coffee can upset nerves, cause indigestion or prevent sound sleep!"

If you suspect that tea and coffee disagree with you... try Postum for 30 days. Postum contains no caffeine. It is simply whole wheat and bran, roasted and slightly sweetened. It's easy to make... and costs less than half a cent a cup. It's delicious, too... and may prove a real help.

Little Helps For This Week

Wherefore thou art no more a servant, but a son, and if a son, then an heir of God through Christ. Gal. 4:7

Not by the terrors of a slave God's sons perform His will. But with the noblest powers they have His sweet commands fulfil.

Every one of us has at all hours duties to do, and these he can do negligently like a slave, or faithfully like a true servant. Do the duty that is nearest thee, that first and well, all the rest will disclose themselves with increasing clearness and make their successive demand. Were your duties never so small, set yourself with double and treble energy and punctuality to do them hour after hour, and day after day. Wherever we are, either with people or alone, we have our daily round of work, and that which makes one man to differ from his neighbor is not what things he does, but his manner of doing them.

Half of the 56 signers of the Declaration of Independence were college-bred; 16 had "classical" educations; two were instructed entirely by tutors, and 16 had very little learning.

During the first six months of 1936, about 37 per cent. of the accidents at railroad crossings resulted from drivers of motor vehicles running into the sides of trains.

LOCAL & GENERAL

Mrs. Nowak of Calgary visited her son, N. Nowak, on Monday.

Mr. Elmer Evans of Calgary visited his parental home over weekend.

Mr. Hector Baines and Murray Kendrick were weekend visitors at the latter's home.

Mr. C. E. Reiber drove to Lethbridge on Saturday to spend the weekend.

For Boys Scampers and Running Shoes in all lines—T. E. Scott.

J. A. McGhee attended a district conference of C.P.R. employees held in Calgary on Tuesday.

Mr. Harold Welch, who for the past year has been visiting his old home in England, returned to Didsbury on Wednesday.

A meeting to organize for Softball will be held at the C.P.R. waiting room on Friday evening at 8 p.m. All interested should attend.

Miss Margaret McCormick who had been visiting at the Moyle home, returned to her home at Brantford, Ont., Saturday evening.

Mr. Ed. Watkin of the Builders' Hardware went to Calgary Wednesday where he will place his order for Christmas Toys.

John and Tom Allen, of Turner Valley, came home to visit their parents, Mr. and Mrs. J. M. Allen, a few days last weekend. Their mother underwent a major operation at the Didsbury Hospital Monday.

Weekend Special.—Boys Shirts, sizes 12 to 14, regular price 85c to clear at 50c.—T. E. Scott.

Walter Huston, with Ruth Chatterton, in "Dodsworth" is the movie feature this week. The book was a best seller, the play ran nearly two years on Broadway and the screen version is truly great.

Mac's Hardware are remodelling the store lately used as a second hand store and will use it as a machinery warehouse. Mac has taken the agency for the Case line of machinery.

Mr. and Mrs. Harder leave on Monday for Kitchener on a 2-month visit. While in the East they will attend the Mission Board Conference of the Mennonite Church which will be held in Ohio.

Photographs Reduced One Third for a short time. 7x9 Mounted \$1 each; Tinted \$2; Half Cabinets from \$3 per dozen; Cabinets from \$5 per dozen; Postcards \$1 per dozen.—J. Scrutton, Photographer.

Special services for the Coronation will be held at St. Cyprian's Anglican Church, Sunday, May 9th. Holy Communion at 11 a.m. with special prayers and hymns. Members of the Legion and lodges especially welcome. Service at St. George's, Hartmann 3 p.m.

After they had purchased tickets monthly on an Australian sweepstake for a year and a half, Dame Fortune finally smiled on seven Calgary War Veterans, all members of Calgary Branch of the Canadian Legion. They received word that they had won a prize valued at between \$20,000 and \$25,000.

Word has been received of Mrs. W. A. Moutell, who passed away at Coronation last week. Mrs. Moutell resided 8 miles northwest of Didsbury from 1902 to 1907 and will be remembered by the older residents of the district. She is survived by her husband and two daughters.

At the Central Alberta district convention of the W.C.T.U. held at Stettler last Thursday and Friday, Mrs. J. R. Geeson was reelected president, Mrs. Halliburton vice-president, Miss Zillah Cresman re-elected recording secretary, Mrs. Gaetz, Red Deer, corresponding secretary and Miss High, Red Deer, treasurer. Delegates from Didsbury were Rev. and Mrs. Geeson, Mrs. D. Sinclair, Miss G. Eby and Miss Z. Cressman.

T. E. Scott has the best values in all lines of Men's and Boys Shoes.

We notice that Eddie Watkin is wearing a broad smile these days and handing cigars to his friends. He even offered one to the editor.

Doings of Our Neighbors

AT OLDS: Friday, May 7th is going to be a big day in Olds when over 650 entries will be adjudicated in the second annual Music and Dramatic Festival of the Olds Inspectorate. Ten adjudicators will be busy in the forenoon selecting the winners in competitions in solos, duets and recitations, while in the afternoon 38 choruses, 24 action songs and 21 dramatizations will be heard. Then there is the one-act play competition in which there are fourteen entries.

Mr. Wong Pond, prominent Chinese citizen of Olds, has been elected president of Golden Gate Oils Ltd., a Chinese company which develops oil leases in Turner Valley.

Purchase of Princeton Question fine 2-year-old Shorthorn bull, by the Alberta Government from the Duke of Windsor's E.P. Ranch at Pekisko to lead the herd at the Olds School of Agriculture, was announced recently by Hon W. N. Chant, then minister of agriculture.

Sharp's Shows to Continue

We have been asked on numerous occasions of late when we will discontinue our shows in Didsbury. Where this rumor started we do not know. At any rate it is not true. We have always endeavored to bring you entertainment that would please, and we intend to continue to do so. It is true that business in the past has not been profitable, but we along with others in Didsbury, have faith in the future and intend to continue business. All we ask is the best support you feel you can give us, and we will do our best to please you—SHARP'S SHOWS.

Free Aeroplane Rides.

J. V. Berscht & Sons announce in their advertisement in this issue of the Pioneer that on Saturday, 22nd May, a lucky boy or girl from the country and also one from the town will be given free aeroplane rides. All girls and boys in Didsbury or district had better find out about this and get in on a wonderful chance to have a trip through the skyways.
